STRONG-SHIELD[®] HIGH-PERFORMANCE COATING

Coating	Salt Spray	Kesternich	Description
Strong-Shield	1,000/hrs.	15 Cycles	Coating used outdoors for highly corrosive applications. Acid rain protection. ACQ compatible.

Specifications:

- Product meets ASTM B-117¹ for salt spray corrosion testing

Features:

- High degree of corrosion resistance
- Coating exceeds 1,000/hr. salt spray resistance
- Kesternich: 15 cycles
- Rust/Acid rain protection
- Designed to work with ACQ treated lumber

Coating: The Strong-Shield coating is a high-grade metal surface processing technology that prevents fastener corrosion. The system consists of four layers: a metallic zinc layer, a passivation, a layer of functional nano coating used as a sealer, and a high-grade anti-corrosion chemical conversion film.

¹(Tested in accordance with the American Society of Testing Materials - ASTM B 117)
